

Public API

When working with the API Version 2.0, the date format used for transactions is YYYY-MM-DD, both for the request and the response, following the standard [ISO 8601](#)

- [API "Contracts"](#)
 - [API "Contracts" \(File-based approach\)](#)
 - [API "Contracts" \(Parametric approach\)](#)
- [API "Reports"](#)
- [API "Transactions"](#)

API "Contracts"

- [API "Contracts" \(File-based approach\)](#)
- [API "Contracts" \(Parametric approach\)](#)

API "Contracts" (File-based approach)

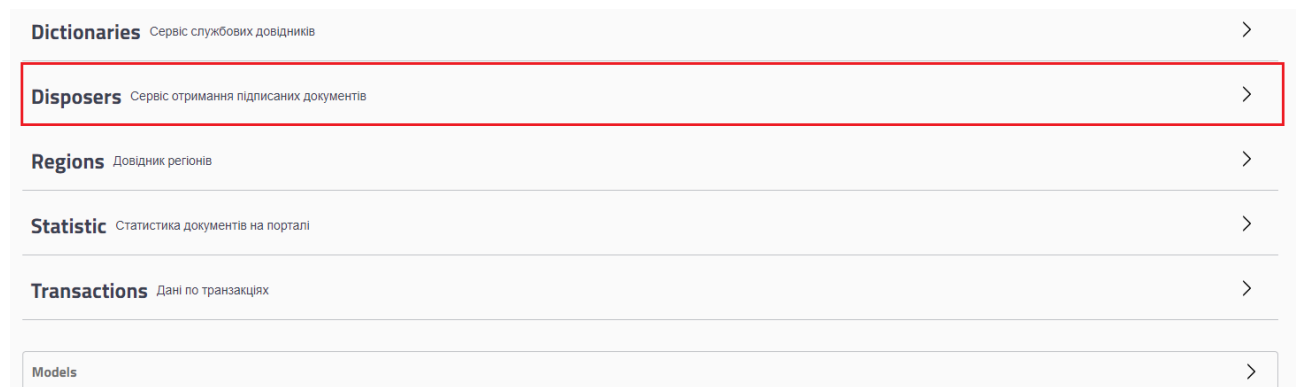

To view API parameters, please follow the link:

<http://api.spending.gov.ua/api/swagger-ui.html>

In the dropdown list, select version 2.0:

To access the service for published documents, click on the section "Disposers Service for obtaining signed documents":

The section contains the following tabs:

- Returns the list of generated files;
- Checking API availability;
- Get a file with signed documents of the specified type on the specified date.

To view the list of generated files, click on the "Returns the list of generated files" tab:

Dictionaries Сервіс службових довідників	>
Disposers Сервіс отримання підписаних документів	∨
GET /v2/disposers/files Повертає перелік згенерованих файлів	
GET /v2/disposers/ping Перевірка доступності API	
GET /v2/disposers/snapshot/{date}/{type} Отримати файл з підписаними документами вказаного типу на вказану дату	
Regions Довідник регіонів	>
Statistic Статистика документів на порталі	>
Transactions Дані по транзакціях	>

parentId	integer	Contract id ("parent" contract for Penalty sanction)	

DELETED

Name	Data type	Description	Example
id	integer	Document id	{"id":83208892 "documentNumber":"б/н"}
documentNumber	string	Document number	

200 OK — Successful request. If any data were requested by the client, they can be found in the header and/or message text. Introduced in HTTP/1.0.

201 Created — As a result of the successful execution of the request, a new resource has been created. More details here.

401 Unauthorized — Access to the requested resource requires authentication. More details here.

403 Forbidden — The server understood the request but refuses to execute it due to access restrictions for the client to the specified resource. More details here.

404 Not Found — The most common error when using the Internet, the main reason being a mistake in the web page address. More details here.

Errors:

200 OK — Successful request. If any data were requested by the client, they can be found in the header and/or message text. Introduced in HTTP/1.0.

201 Created — As a result of the successful execution of the request, a new resource has been created. [More details here.](#)

401 Unauthorized — Access to the requested resource requires authentication. [More details here.](#)

403 Forbidden — The server understood the request but refuses to execute it due to access restrictions for the client to the specified resource. [More details here.](#)

404 Not Found — The most common error when using the Internet, the main reason being a mistake in the web page address. [More details here.](#)

API "Reports"

In this section, you can view information such as:

1. Download "reports for a specific period";
2. Download "reports by Company Code (EDRPOU), report type, and period";
3. View the "directory of reporting periods".

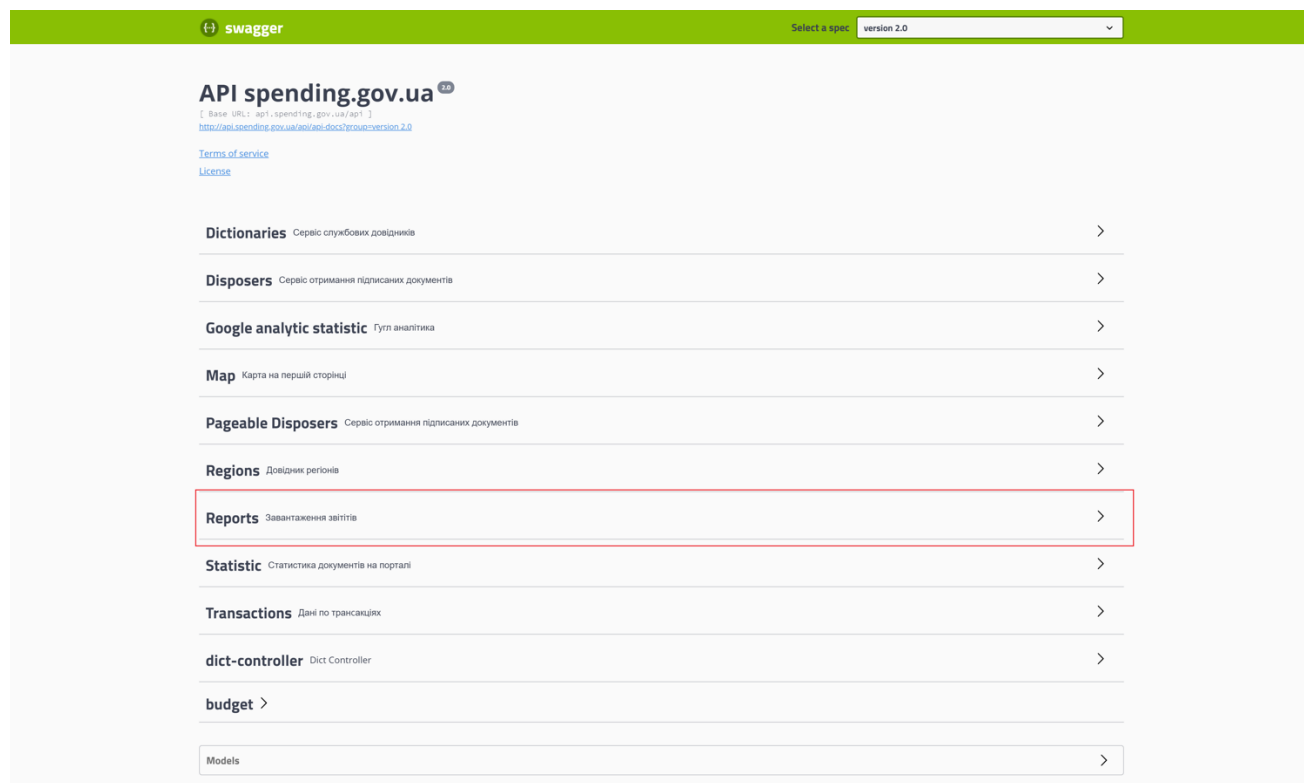

To view API parameters, click on the link: <http://api.spending.gov.ua/api/swagger-ui.html>

In the dropdown list, select version 2.0:

Downloading reports for a specific period

To download reports for a specific period, click on the section "Reports downloading":

Click "Request reports by publication date":

GET /v2/api/reports/async/date/{date} Запит звітів за датою оприлюднення

Click "Try it out":

GET /v2/api/reports/async/date/{date} Запит звітів за датою оприлюднення

Parameters Try it out

In the "Publication date" field, enter the date in the "YYYY-MM-DD" format and click the "Execute" button:

GET /v2/api/reports/async/date/{date} Запит звітів за датою оприлюднення

Parameters Cancel

Name	Description
date string (path)	Дата оприлюднення <input type="text" value="date - Дата оприлюднення"/>

Execute

Copy generated token:

Code Details

200

Response body

```
eyJhbGciOiJIUzI1NiIsInR5cCI6IkpXVCJ9.eyJzdWIiOiJmdWQsYWwWILCjpyYXQ10jE1Nzc3NDY3MzQsImV4cCI6IjE6MTU1NzclMzkyZnV4VXVkJ01fjAxc0cwMS9wMS5qc29uIn0. ZeEtFOCALA0WjwM6NqGtSMNdawYzJwfjag2MuvHGTAgwzVki9WhuJ8U1-7HzhTCIAoDrzHKq_YIn2inSMzj7w
```

Switch to the tab "Get the query result using the corresponding token":

GET /v2/api/reports/async/result/{token} Отримання результату запиту за відповідним токеном

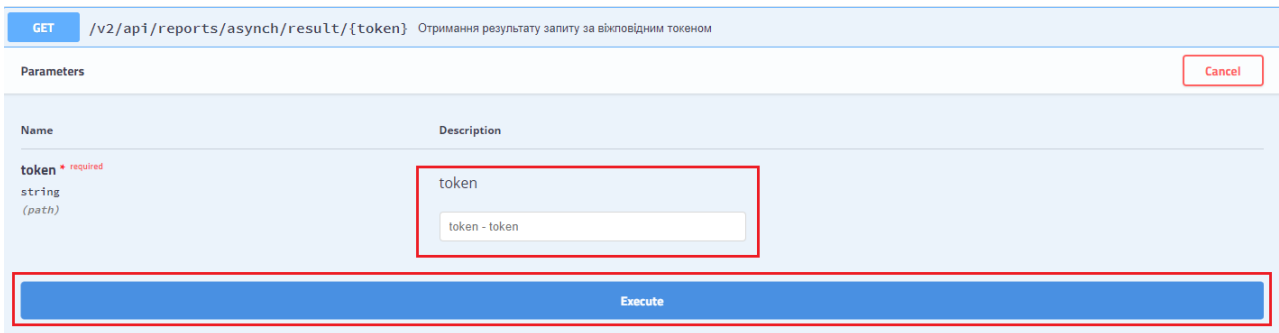

click "Try it out":

GET /v2/api/reports/async/result/{token} Отримання результату запиту за відповідним токеном

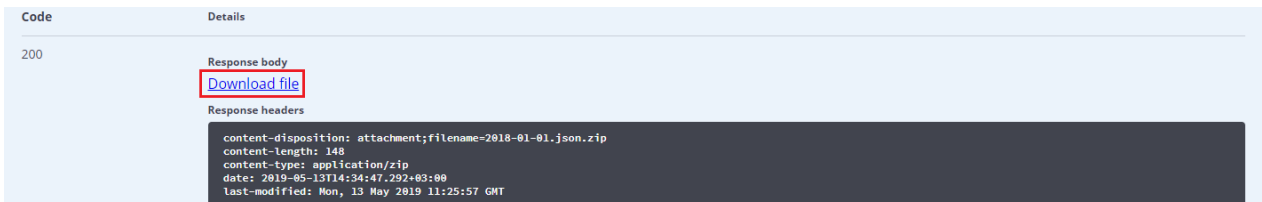

Parameters Try it out

Name	Description
token * required string (path)	token

Paste the token into the "Token" field and click the "Execute" button:

To download the file with reports, click on the "Download file" link:

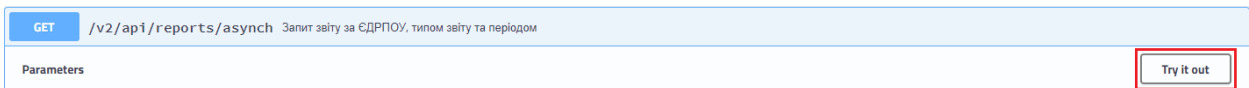

Downloading reports by Company Code (EDRPOU), report type, and period

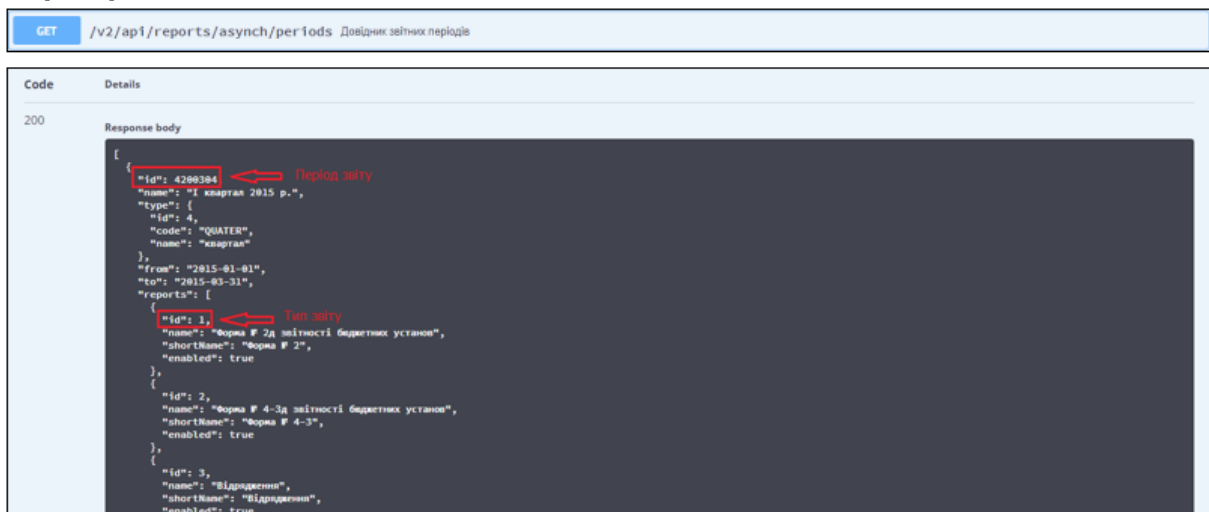

To download reports by Company Code (EDRPOU), report type, and period, click on the tab "Request report by EDRPOU, report type, and period":

click "Try out":

Refer to the "Directory of reporting periods" tab for the data to fill in the "Report type" and "Report period" fields.

Enter data in the "EDRPOU," "Report type," and "Report period" fields and click the "Execute" button:
